

HONORABLE RICARDO S. MARTINEZ

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON
AT SEATTLE

UNITED STATES OF AMERICA, et al.,

Plaintiffs,

vs.

STATE OF WASHINGTON, et al.,

Defendants

Case No. C70-9213

Subproceeding No. 89-3-06 (Shellfish)

TREATY TRIBES' REQUEST FOR DISPUTE
RESOLUTION RE: REQUESTS FOR
INTERVENTION AND COVERAGE IN
SETTLEMENT AGREEMENT

INTRODUCTION

The Squaxin Island Tribe, Suquamish Tribe, Jamestown S'Klallam Tribe, Lower Elwha Klallam Tribe, Port Gamble S'Klallam Tribe, Nisqually Tribe, Skokomish Tribe, Tulalip Tribes, Swinomish Indian Tribal Community, Lummi Nation, Puyallup Tribe, Stillaguamish Tribe, Sauk-Suiattle Tribe, Nooksack Tribe, Upper Skagit Tribe, Muckleshoot Tribe, and Makah Tribe (the "Tribes") respectfully request that this Court resolve disputes arising under the Settlement Agreement (Dkt. 14476) entered by

1 the Court as an Order and Consent Decree (Dkt. 14477) in Subproceeding 89-3.¹ Specifically, as set
2 forth in the attached spreadsheet, the Tribes object to certain requests for intervention and coverage in
3 the Settlement Agreement, which requests seek to effectuate the release of the Tribes' treaty shellfishing
4 rights on certain tidelands.

5 On June 21, 2007, the Court approved the parties' Settlement Agreement, which recognizes the
6 Tribes' treaty rights to a share of the naturally-occurring shellfish on tidelands controlled by commercial
7 shellfish growers, e.g., *United States v. Washington*, 157 F.3d 630 (9th Cir. 1998), and the numerous
8 outstanding issues regarding the implementation of those rights. (Dkt. 14476 at 9-10). To resolve these
9 issues on tidelands that were farmed by *bona fide* commercial shellfish growers on or before August 28,
10 1995—the date of the Court's order and plan implementing the Tribes' treaty shellfishing rights, see
11 *United States v. Washington*, 898 F. Supp. 1453 (W.D. Wash. 1995)—the Tribes agreed, in exchange for
12 various forms of consideration, that “any and all shellfish on ‘covered tidelands’ . . . are deemed as of
13 the date of this Settlement Agreement to be ‘staked or cultivated by citizens’ for the purposes of
14 implementing the Treaties,” and thus exempt from Tribal treaty harvest. (Dkt. 14476 at 21).² To ensure
15 that the Settlement Agreement did not result in the undue diminishment of the Tribes' rights to
16 naturally-occurring shellfish, the Agreement carefully circumscribed the definition of “covered
17 tidelands” and required the eight named intervenor defendants and other persons requesting intervention
18 and coverage for their tidelands (collectively, “intervenors”) to file documentary evidence demonstrating
19 their qualifications under that definition no later than March 1, 2008.

20
21
22 ¹ All docket numbers referenced in this Request for Dispute Resolution and in the attached spreadsheet
are docket numbers in Subproceeding 89-3.

23 ² Since August 28, 1995, any commercial shellfish grower initiating cultivation activities has been on
24 notice of the Tribes' treaty rights, and Court-ordered procedures have controlled the implementation of
those rights on the grower's tidelands.

1 The Court’s Order Adopting Stipulation Re Shellfish Settlement Agreement (Dkt. 14482)
 2 provided the Tribes eight months to file any objections to the intervenors’ requests for coverage—
 3 subsequently, the Court’s Order Adopting Stipulation Regarding Implementation of Shellfish Settlement
 4 Agreement (Dkt. 14580) extended that deadline to June 30, 2009, so that the Tribes and the intervenors
 5 could work cooperatively to resolve potential objections (*see* Dkt. 14579). While that effort proved
 6 fruitful, it did not result in the resolution of all of the Tribes’ objections. The Tribes therefore request,
 7 pursuant to Paragraph 11 of the Settlement Agreement (Dkt. 14476 at 30) and Section 9 of the Revised
 8 Shellfish Implementation Plan (Dkt. 14331), resolution of disputes regarding some of the intervenors’
 9 requests for coverage in the Settlement Agreement.

10 **THE LEGAL STANDARDS CONTROLLING REQUESTS FOR INTERVENTION AND**
 11 **COVERAGE IN THE SETTLEMENT AGREEMENT**

12 Paragraphs 2 and 5 of the Settlement Agreement identify several categories of tidelands eligible
 13 for “covered tidelands” status so long as the intervenor who controls those tidelands submitted
 14 documentary evidence on or before March 1, 2008 establishing the requirements set forth in the
 15 Agreement. (Dkt. 14476 at 11-12, 20). Where the intervenor controlled the tidelands as of August 28,
 16 1995, those categories include:

- 17 (1) The “Party Growers” category: For the eight named intervenor defendants in
 18 Subproceeding 89-3, “a sufficiently identified list of their tidelands . . . owned, leased
 19 from a private party or otherwise subject to a right of harvest . . . as of August 28,
 20 1995.”
- 21 (2) The “Licenses” category: For a prospective intervenor, that it had, on or before
 22 August 28, 1995, an active Washington Department of Fish and Wildlife aquatic farm
 23 registration (“AFR”) and a Washington Department of Health (“DOH”) certification
 24 for those tidelands.
- 25 (3) The “Sustained Commercial Production” category: For a prospective intervenor, that
 it had an active AFR and DOH certification for those tidelands on or before the date it
 requested coverage, and that “documentary evidence establish[es] that those tidelands
 were used for sustained commercial production of shellfish during some portion of
 the time between January 1, 1985 and August 28, 1995.”

1
2 Where the intervenor did not control the tidelands as of August 28, 1995, those categories
3 include:

4 (4) The "Party Growers Successor" category: For a named intervenor defendant or for a
5 prospective intervenor, that it had an active AFR and DOH certification for those
6 tidelands on or before the date it requested coverage, and that it acquired those
7 tidelands between August 28, 1995 and March 1, 2008 from one of the eight named
8 intervenor-defendants, which controlled those tidelands as of August 28, 1995.

9 (5) The "Licenses Successor" category: For a named intervenor defendant or for a
10 prospective intervenor, that it had an active AFR and DOH certification for those
11 tidelands on or before the date it requested coverage, and that it acquired those
12 tidelands between August 28, 1995 and March 1, 2008 from a person that had an
13 active AFR and DOH certification for those tidelands on or before August 28, 1995.

14 (6) The "Sustained Commercial Production Successor" category: For a named intervenor
15 defendant or for a prospective intervenor, that it had an active AFR and DOH
16 certification for those tidelands on or before the date it requested coverage, and that it
17 acquired those tidelands between August 28, 1995 and March 1, 2008 from a person
18 with respect to which "documentary evidence establish[es] that those tidelands were
19 used for sustained commercial production of shellfish during some portion of the time
20 between January 1, 1985 and August 28, 1995."

21 (7) The "Section 6.3" category: For a named intervenor defendant or for a prospective
22 intervenor, "where those tidelands were, before the date that a Consent Decree
23 implementing this Settlement Agreement is entered by the Court, [June 21, 2007,]
24 established not to include a natural shellfish bed pursuant to section 6.3 of the
25 Revised Shellfish Implementation Plan."

(*Id.*). The Settlement Agreement also expressly designates as "covered tidelands" (without any further
action required) certain specified tidelands owned by the State of Washington and leased by the
Washington Department of Natural Resources for shellfish cultivation purposes. (*Id.* at 14-15).

Under the plain language of the Settlement Agreement, an intervenor seeking coverage bears the
burden of demonstrating that each parcel for which it requests coverage satisfies the requirements of one
of the seven categories of "covered tidelands" set forth above. (*See id.* at 11-12, 20); (*see also* Order of
June 13, 2008, Dkt. 14572 at 5) ("The designation of beds as 'staked [or] cultivated' within the language

1 of the Shellfish Proviso is in derogation of the Tribes’ treaty right to harvest shellfish at their usual and
2 accustomed places. Therefore, any provision regarding that designation, including the Tribes’
3 agreement in the Settlement Agreement, must be strictly construed.”).

4 **THE TRIBES’ OBJECTIONS TO CERTAIN REQUESTS FOR INTERVENTION AND**
5 **COVERAGE IN THE SETTLEMENT AGREEMENT**

6 The eight named intervenor defendants and 67 applicants for intervention have filed notices of
7 their requests for coverage under the Settlement Agreement for a total of approximately 864 tidelands
8 parcels—the attached spreadsheet sets forth, *inter alia*, each intervenor and each parcel for which
9 “covered tidelands” status has been requested (columns A through C).³ The intervenors’ notices
10 comprise thousands of pages of deeds, title and lease documents, licenses, and business records, but
11 those notices often fail to concisely list the specific parcels for which coverage is requested, and for each
12 parcel, rarely state the category that provides the basis for the request. As a result, the Tribes have spent
13 hundreds of hours sifting through these documents first to identify the parcels for which coverage has
14 been requested, next to ascertain which of the seven categories provides the basis for each request, and
15 finally to determine whether the documents satisfy the requirements of the Settlement Agreement.

16 After doing so, and prior to filing this Request for Dispute Resolution, the Tribes provided the
17 intervenors a preliminary spreadsheet showing the Tribes’ potential objections and identifying specific
18 deficiencies in the documentary evidence submitted to support coverage for each parcel. The Tribes and
19 the intervenors have worked together in good faith to address these deficiencies—a process to which the
20

21 ³ To the Tribes’ knowledge, this Request for Dispute Resolution and the attached spreadsheet include,
22 with one exception, all requests for intervention and coverage in the Settlement Agreement. That
23 exception is the request for intervention and coverage filed by A&K Trust. (Dkt. 14497). The
24 Suquamish Tribe previously objected to A&K Trust’s request (Dkt. 14565), and the Court granted the
25 Tribe’s objection and denied A&K Trust’s request on June 13, 2008 (Dkt. 14572). To the extent the

1 Tribes have devoted hundreds of additional hours reviewing thousands of additional pages of documents
2 provided by the intervenors. This process has led to the resolution of potential objections to several
3 hundred parcels for which coverage has been requested. Nevertheless, many deficiencies remain.

4 The Tribes now invoke Paragraph 11 of the Settlement Agreement and Section 9 of the Revised
5 Shellfish Implementation Plan to resolve their objections to approximately 416 of the 864 parcels for
6 which the intervenors request "covered tidelands" status. Although there are more than 50 additional
7 parcels for which the documentary evidence does not satisfy the unambiguous requirements of the
8 Settlement Agreement, the Tribes have chosen not to file objections to those parcels for a variety of
9 reasons. The Tribes therefore have no objection to 448, or 52%, of the requests. The attached
10 spreadsheet identifies the Tribes' position ("no objection" or "objection") with respect to each parcel
11 (columns F and G).

12
13 To facilitate and expedite the Court's resolution of the Tribes' objections, the Tribes have set
14 forth on the spreadsheet one or more bases for their objection to each parcel (columns H through P).
15 The basis for each objection reflects the Tribes' best supposition as to the category or categories of the
16 Settlement Agreement under which an intervenor seeks coverage for the tidelands at issue. Descriptions
17 of each of the specific objections in the spreadsheet are as follows:

18 Column H: No AFR for that parcel on or before August 28, 1995

19 Column I: No DOH certification for that parcel on or before August 28, 1995

20 Column J: No sustained commercial production established for that parcel for a portion of
21 the time between January 1, 1985 and August 28, 1995

22
23
24 attached spreadsheet omits any parcel or parcels for which an intervenor has requested coverage, the
25 Tribes reserve the right to object to those parcels when the omission is identified.

1 Column K: No right to harvest that parcel as of August 28, 1995

2 Column L: No AFR for that parcel on or before the date of the coverage request

3 Column M: No DOH certification for that parcel on or before the date of the coverage request

4 Column N: No right to harvest that parcel before March 1, 2008

5 Column O: No determination under Section 6.3 of the Revised Shellfish Implementation Plan
6 that no natural bed exists on that parcel

7 Column P: The request to intervene was not timely filed

8 The Tribes have also included column Q on the spreadsheet, which identifies those parcels with respect
9 to which the intervenors have withdrawn their initial requests for coverage.

10 Thus, for example, under the Licenses Successor category, an intervenor seeking coverage for
11 particular tidelands may have failed to establish (a) that the person from whom it acquired the tidelands
12 had an active AFR on or before August 28, 1995; (b) that the person from whom it acquired the
13 tidelands had an active DOH certification on or before August 28, 1995; (c) that it had an active AFR for
14 those tidelands on or before the date it requested coverage; and/or (d) that it had an active DOH
15 certification for those tidelands on or before the date it requested coverage. To the extent an intervenor
16 seeks coverage under a category other than the one(s) suggested by the Tribes' spreadsheet, the Tribes
17 reserve all arguments that their objection is warranted on some other basis. That is, the Tribes' stated
18 objection to a particular parcel is a general objection and is not limited to the specific basis or bases
19 identified on the spreadsheet; the intervenor retains the burden to show that the requirements for
20 coverage have been fulfilled.
21
22
23
24
25

REQUEST FOR RELIEF

Accordingly, the Tribes respectfully request that the Court grant their objections to the requests for intervention and coverage in the Settlement Agreement as set forth in the attached spreadsheet, and deny "covered tidelands" status to those tidelands.⁴ The Tribes also propose that they confer with the intervenors and submit a stipulated scheduling order for the Court's approval, or request a status conference, no later than August 31, 2009.

Respectfully submitted this 30th day of June, 2009.

⁴ The Tribes note that the Court's denial of the intervenors' requests for coverage (and the *per se* exemption from Tribal treaty harvest sought) may or may not result in any Tribal harvest on those tidelands. Rather, the Tribes' rights to harvest will be controlled by the terms of the Revised Shellfish Implementation Plan, which terms include, for example, a determination of whether a natural shellfish bed existed on the tidelands when cultivation activities began.
